

DigiTek

Prevent Against Common Data Loss

Accidental or Malicious Erasure, Fire , Flood, Hackers, Hard Drive Crash , Hurricane, Lightning, Power Surge, Theft , Tornado's, Virus's

**Now more than ever, its important to protect your computers data.
Cheaper to have you backup to a service than your back up to a wall!**

**Quote" With all the things going wrong in the world today, don't make
The loss of your data one of them." - WLC**

**DigiTek has discontinued Online backup Service
as of Sept 1st 2010...**

**There are several excellent services available
www.carbonite.com or www.mozy.com**

All Data is DES Encrypted and Password Protected prior to transmission.
Price a function of Storage Space needed...
